

Use complete sentences and paragraph structure when appropriate (writing counts in 201).

Use your answers to demonstrate your knowledge of course content (it's not a quiz show!).

You may use your calculator as appropriate, but for your explanations show key steps in your arithmetic.

Part 2, Macro Problems (5 pts each) Answer on the lined paper, but you may also show calculations on this page.

4.	production (lbs)		prices (per lb)	
	mead	weed	mead	weed
The Shire	10	40	\$3	\$5
Rivendell	30	20	\$6	\$2

t/f/o -- explain-- "output is greater in Rivendell"
